Indiassetz, India's foremost real estate wealth management advisory, expands to Hyderabad

ANI | Updated: Jun 20, 2018 16:58 IST

Hyderabad [India], June 20 (Businesswire-India): **Indiassetz**, India's foremost **real estate** wealth management advisory start-up announced that it has expanded its presence to **Hyderabad**. Launched in 2014 by a group of bankers, **Indiassetz** was formed to bridge the gap in the current property investment and management space in India.

Conceptualized as 'a banking solution for those with **real estate** wealth', **Indiassetz** today has become a trusted name in the **real estate** wealth management space. Testimony to its growth is the fact that within a short span of time, the start-up has acquired over 3000 registered clients across the globe and is currently managing a **real estate** portfolio worth over INR 2000cr.

While historically we have had institutions like banks for financial investments, there were no professionally run service firms that could manage and handle the **real estate** wealth of an individual. In fact, thus far most people have been dependent on family, friends and sometimes brokers to help manage their **real estate** portfolios and advise them on investments in **real estate**. **Indiassetz** is addressing this gap in the industry, with a customer-focused approach, by professionally managing the entire lifecycle of the clients' **real estate** wealth ownership.

Shivam Sinha - Founder and CEO, [Indiassetz](#) said, "We're delighted to have launched our services in [Hyderabad](#) - one of India's fastest growing cities. It is a major investment destination and home to several HNIs and [NRIs](#) who have historically invested in the city for the potential it promises. With a strong team in [Hyderabad](#), [Indiassetz](#) will now be able to offer professional support and guidance to investors for the entire gamut of their [real estate](#) wealth portfolio."

"In fact, our entire team specialises in handholding each client through every transaction, offering trusted advice and professional services in the largely unorganised [real estate](#) wealth and assets management space. It's a boon for clients who don't reside in the same city or country where the property is located, as well as for time-starved professionals, who miss the professional touch in property dealings. We have some of the most reputed and well-known industry leaders as our clients who have adopted our services to address the challenges they face in managing their [real estate](#) wealth portfolio."

With automation and cutting-edge technology at its core, [Indiassetz](#) shows how application of technology could lead the way for Indian [real estate](#) wealth management. Right from the buying decision and ownership phase to the re-investment or growth stage, [Indiassetz](#) is the only company in India to offer professional support and guidance through the whole gamut of [real estate](#) wealth portfolio.

Dr Sridhar Mitta, Ex-CTO of Wipro and a trusted user of [Indiassetz](#) said, "[Indiassetz](#) has consistently been my Property Wealth Advisors and Managers, executing all work on my [real estate](#) portfolio. They look at my portfolio on a holistic basis and provide their inputs accordingly. They have helped me immensely consolidate and organise my [real estate](#) portfolio over the last two and a half years."

"[Indiassetz](#)'s vision is to change the way [real estate](#) investment is perceived in India by bringing in more professionalism, transparency, trustworthiness and client centricity," added Sinha. (Businesswire-India)
